Thank You for allowing me to take your portraits. I would be happy to help if you need assistance ordering your prints through your gallery. If you have chosen to purchase the high resolution digital images of your pictures, you may need the "Personal Use License" as printed below.

## Personal Use License

Sunshine's Photography grants buyer a non-exclusive perpetual personal-use license to download, copy, and print the accompanying image, subject to the following restrictions:

- This license is for personal use only. Personal use means non-commercial use of the image(s) for display on personal websites and computers, or making prints for personal use. The image(s) may not be used in any way whatsoever in which you charge money, collect fees, or receive any form of remuneration. The image(s) may not be used in advertising. The image(s) may not be resold, relicensed, or sub-licensed.
- Title and ownership, and all rights now and in the future, of and for the image(s) remain exclusively with the Sunshine's Photography.
- There are no warranties, express or implied. The image(s) are provided 'as is.'
- Sunshine's Photography will not be liable for any third party claims or incidental, consequential or other damages arising out of this license or buyer's use of the image(s).

Your digital images are high resolution images that can be printed very large. However, you need to understand that most professional cameras (mine included) capture images in a 2x3 format. This means that your images will fit perfectly on any print that has a 2x3 ratio. Such prints include 4x6, 8x12, 10x15, 12x18, 16x24, 20x30, & 24x36. For these size prints, what you see for your proof will be exactly what you get. However, some of your image will be cropped on prints that are not in a 2x3 ratio. This includes wallets, 5x7, & 8x10. Depending on the picture, the area cropped off may or may not be an important part of the image. My website allows you to see what area of your image will be cropped off, make adjustments to the crop, or select a "no crop" option.

If you choose to have your images printed elsewhere, **make sure you know exactly what the printed area will be.**

*God bless,  
Sunshine's Photography*
